It's not really a blackpill. It's a call to arms. There will never be an elected anti establishment person again if they are allowed to take the presidency. Trump happened because the establishment was negligent. Their guard is raised now, and they will make damn sure there is no path to power again for anyone they do not approve of if they are given the opportunity to do so. So yes, make sure to rise up today if only platitudes are given. Biden (or any other establishment candidate) must never be allowed to get within touching range of the presidency this election. If it happens, all paths will be closed besides an armed revolution. Which might eventually happen if we do go down that road, but it will end in a lot more suffering than what the price would be right now.

You're wrong. If this election is stolen it means all future elections will be stolen. Trump is the last stand.

Yup, the cultural damage has already been done but the war goes on.

I won't hire anyone who is even remotely Left anymore, so will thousands of companies.

The divide will continue, cities vs everyone else

Implying that, short of violent insurrection, they can't literally just rig all future elections?

It better start today. If the news coming out of Italy is true, we have the motherfuckers responsible for flipping the votes for Dominion. Maybe that is the MOAB.

They will all stand around for a hit and then head him. Meanwhile democrats will remove the filibuster, enact gun control, pack the courts, open the doors to immigration and sell us out to China. But hey at least some people went to DC amirite?

It's always been this way. The fan-boy fantasists that scream "trust the plan/ it's happening/ breaking/ we gottem" bullshit, while calling anyone that disagrees with them "doomers", to me have always been controlled opposition.
